/* File:README.txt
   Curses-based, Connect Four game
   -------------------------------------------------------------
   Class: CS 375                         Instructor: Dr. Richardson
   Assignment:  Project 3                Date assigned: September 23, 2008
   Programmer: David Houngninou          Date completed: October 07, 2008  */
```

At the welcome screen you have 3 options.

-          Press A to play a human vs. computer game

-          Press B to play a human vs. human game

-          Press C to view the game instructions

Once you start a game, use the cursor keys to drop or move the token from left to right.

You can also use the optional keys f, g or v instead of the cursor keys.

At the end of each game, make sure you press the R to restart.

You are free to navigate between pages during the game.

A score page is also available
